HOME TEXTILE CATALOGUE

 HASEKİ TEKSTİL

Haseki Tekstil has been a fixture in the textile industry since the early 1960s. Over the last six decades, we have evolved from a regional manufacturer into a reliable global supplier.

Our Production & Quality

Our production network is strategically diversified across key textile hubs, including our high-capacity main facility in the Kayseri Free Zone backed by official OEKO-TEX® and ISO certifications that guarantee sustainable manufacturing and new specialized facilities in both Denizli and Gaziantep. This ensures scalable capacity, raw material access, and efficient global logistics.

Our Global Reach

Our business model is thoroughly international. Today, we successfully export to major markets worldwide, holding a competitive edge across key territories in the EMEA, MENA, and Balkan regions.

Private Labeling

At Haseki Tekstil, we specialize in Private Labeling. By collaborating closely with our partners, we customize packaging and labeling to full compliance and create unique product identities.

Our Philosophy

We believe that sustainable growth is only possible through absolute trust. Our business model is entirely service-oriented, focusing on understanding the unique needs of our buyers and delivering dependable, textile solutions. We don't just supply products; we build long-term relationships where integrity, transparency, and client satisfaction form the foundation of everything we do.
